Eagle Plains Resources Ltd.
(An Exploration Stage Corporation)
Notes to Condensed Consolidated Interim Financial Statements
(Unaudited - Expressed in Canadian dollars)

September 30, 2025 and 2024

1. Nature and Continuance of Operations

Eagle Plains Resources Ltd. (the "Company" or "Eagle Plains" or "EPL") was incorporated on March 30, 1994, pursuant to the Alberta Business Corporation Act (Alberta), and is extra provincially registered in the Yukon, British Columbia, the Northwest Territories and Saskatchewan. The Company is a junior resource company holding properties located in British Columbia, Yukon, the Northwest Territories and Saskatchewan for the purpose of exploring for, and the development of, mineral resources and it is considered to be in the exploration stage.

The Company also provides geological services on its properties optioned to others and properties owned by others through its subsidiary, TerraLogic Exploration Inc. (incorporated pursuant to the British Columbia Corporation Act). The gross profit reported on the condensed consolidated interim statements of comprehensive income relates solely to geological services provided to third parties.

On August 15, 2024, the Company formed a separate division, Osprey Power Inc. ("OP"), within the Company that will give Eagle Plains' shareholders direct exposure to strategic opportunities in Canadian green energy transition. As a wholly-owned subsidiary of Eagle Plains, OP will focus on identifying and advancing innovative and diverse clean energy project portfolios in target markets throughout Canada, with an initial focus on Western Canada.

The Company's corporate office and principal place of business is Suite 200, 44-12th Avenue South, Cranbrook, British Columbia, Canada.

These condensed consolidated interim financial statements have been prepared on the basis that the Company is a going concern which envisions the Company will be able to realize assets and discharge liabilities in the normal course of operations. Recoverability of the amounts shown for exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain the necessary financing to complete the development, and attain profitable production or proceeds from the disposition of the exploration and evaluation assets in excess of the carrying amount.

The Company's business may be affected by changes in political and market conditions, such as interest rates, availability of credit, inflation rates, changes in laws, and national and international circumstances. Recent geopolitical events, including regional conflicts and potential economic global challenges such as the risk of the higher inflation and energy crises, may create further uncertainty and risk with respect to the prospects of the Company's business.

These circumstances could have a negative impact on the stock market, including trading prices of the Company's shares and its ability to raise new capital. These factors, amongst others, could have a significant impact on the Company's operations. These condensed consolidated interim financial statements do not include any adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue in business.

2. Basis of Preparation

(a) Statement of Compliance

The condensed consolidated interim financial statements for the Company for the periods ending September 30, 2025 and 2024 are prepared in accordance with International Financial Accounting Standard 34 ("IAS 34"), Interim Financial Reporting, using accounting policies which are consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

These condensed consolidated interim financial statements were authorized for issue by the Board of Directors on November 28, 2025.

Notes to Condensed Consolidated Interim Financial Statements
(Unaudited - Expressed in Canadian dollars)

September 30, 2025 and 2024

2. Basis of Preparation - continued

(b) Basis of Measurement

These condensed consolidated interim financial statements have been prepared on a historical cost basis except for financial instruments classified as fair value through profit or loss ("FVTPL") which are stated at their fair value. These condensed consolidated interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

These condensed consolidated interim financial statements are presented in Canadian dollars, which is also the Company's functional currency.

(c) Use of Estimates and Judgments

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Financial results as determined by actual events could differ from these estimates.

The estimates and underlying assumptions are continuously evaluated and reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and further periods if the revision affects both current and future periods.

Areas of significant judgment include the assessment of impairment of exploration and evaluation assets.

3. Material Accounting Policies

The condensed consolidated interim financial statements have been prepared, for all periods presented, following the same accounting policies and methods of computation as described in Note 3 to the audited consolidated financial statements for the year ended December 31, 2024.

Principles of consolidation

Subsidiaries

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, TerraLogic Exploration Inc. ("TL") and Osprey Power Inc. ("OP").

New accounting pronouncements

Certain new standards, interpretations and amendments to existing standards have been issued by the IASB that are mandatory for accounting years beginning after January 1, 2025, or later years. Updates that are not applicable and have no significant impact to the Company have been excluded in the preparation of these condensed consolidated interim financial statements.

The following accounting standard and amendment are effective for future periods.

IFRS 18 – Presentation and Disclosure in Financial Statements

The objective of the Standard is to improve how information is communicated in an entity's financial statements, particularly in the statement of profit or loss and in its notes to the financial statements. The main change introduced by IFRS 18 is to the way in which reporting entities will structure their statement of profit or loss. Firstly, the Standard introduces two new defined subtotals: Operating Profit and Profit before financing and income taxes. Additionally, the Standard requires an entity to classify all income and expenses into one of the following five categories: operating, investing, financing, income taxes and discontinued operations. The Standard is effective from annual reporting periods beginning on or after January 1, 2027.

4. Accounts Receivable

Accounts receivable is comprised of:

	September 30 2025	December 31 2024
Trade receivables before allowance	\$ 1,661,547	\$ 836,942
Less: allowance for doubtful accounts	(341,013)	(378,231)
Trade receivables, net	1,320,534	458,711
Other	51,829	45,587
	\$ 1,372,363	\$ 504,298

The Company has provided an allowance for lifetime expected credit losses based on the non-ability of certain customers to meet their obligations. The Company does not hold any collateral as security.

5. Investments

The Company holds investments that have been designated as FVTPL as follows:

	September 30, 2025		December 31, 2024	
	Market Value	Cost	Market Value	Cost
Current:				
Common shares in public companies	\$ 2,459,368	\$ 3,437,822	\$ 1,352,224	\$ 3,487,328

For securities traded in an active market, market value is based on the quoted closing bid prices of the securities at September 30, 2025. Cost is calculated using the quoted closing bid price on the date of receipt of the securities.

During the period, the Company received 1,225,000 (September 30, 2024 – 5,307,906) shares for the various option and property purchase agreements in effect with an attributed value of \$151,250 (September 30, 2024 - \$344,237).

During the period, the Company sold investments and received proceeds of \$146,839 (September 30, 2024 - \$328,544), resulting in losses of \$422,450 (September 30, 2024 – gain of \$159,418).

The Company recorded unrealized gain (loss) on investments of \$1,156,648 (September 30, 2024 – (\$219,060)) in the period which is included in the condensed consolidated interim statements of comprehensive income.

7. Exploration and Evaluation Assets

During the period ended September 30, 2025, the Company made acquisition and exploration expenditures of \$420,640 (2024 - \$\$457,395) and received option payments of \$266,251 (2024 - \$93,750). As a result of option payments received, the Company recorded in income, option proceeds in excess of carrying value of \$232,750 (2024 - \$93,750). Exploration and evaluation assets totaled \$3,152,100 at September 30, 2025, up from \$2,871,780 at December 31, 2024. See Schedule 1 – Exploration and evaluation and Schedule 2 – Acquisition and exploration additions.

The Company has interests in a number of optioned exploration projects. As at September 30, 2025, the Company has executed option agreements with third parties on the following projects:

**Option Agreements - Third party earn in
British Columbia**

- (a) **Donna Project:** On June 1, 2022, the Company executed a formal option agreement (subject to regulatory approval) with Annacotty Resources Corp. (a private BC company) ("Annacotty") whereby Annacotty may earn an undivided 60% interest in the Donna Project located east of Vernon, British Columbia. Under terms of the Agreement, Annacotty must complete \$4,000,000 in exploration expenditures, issue 1,200,000 common shares and make \$520,000 in cash payments to Eagle Plains over a five-year period. The agreement was amended December 21, 2022 whereby in consideration for an additional 100,000 shares, the December 31, 2022 payment date was extended to May 30, 2023. On July 21, 2023, an amendment was made to the agreement whereby Annacotty is required to incur \$80,000 expenditures by December 31, 2023 and the effective date changed to May 31, 2024 for consideration of 100,000 shares. Eagle Plains will retain a 2.0% NSR Royalty, with Annacotty having the option to repurchase 1% of the NSR Royalty for \$1.0 million. Annacotty terminated the agreement on June 25, 2025.
- (b) **Findlay Project:** On May 5, 2023, the Company executed an option agreement with Amaroq Gold Corp. ("Amaroq"), a BC corporation, whereby Amaroq may earn up to a 75% interest in the Findlay Project, located NW of Kimberley, BC. The project is owned 100% by Eagle Plains, subject to underlying royalties. Under the terms of the agreement, Amaroq may earn a 60% interest by completing \$5,000,000 in exploration expenditures, issuing 1,800,000 voting class common shares and making \$500,000 in cash payments over a 4-year period. Amaroq may increase its interest to 75% by delivering a feasibility study by 2030. A 2% NSR is reserved for Eagle Plains. Payments are due as follows:

(h) **Olson Project:** On October 24, 2019, the Company executed an option agreement with SKRR whereby SKRR may earn up to a 75% interest in the Olson property located in northern Saskatchewan. Under terms of the agreement, SKRR may earn 51% interest in the property by completing exploration expenditures of \$1,500,000, making cash payments of \$250,000 and issuing 800,000 voting class common shares to EPL over a 3-year period. SKRR may earn up to an additional 24% interest (75% total) in the property by making additional exploration expenditures of \$1,500,000 and issuing 200,000 common shares of SKRR to Eagle Plains on or before December 31, 2023. All payments and requirements have been completed as of February 23, 2023, and SKRR is deemed to have earned a 75% interest in the project.

(i) **Pine Channel Project:** On May 11, 2021, the Company and Tri Capital Opportunities Corp. (subsequently renamed Apogee Minerals Ltd.) ("APO") executed a formal option agreement whereby APO may acquire up to an 80% interest in EPL's 100%-owned Pine Channel project located in Saskatchewan. To earn an 80% interest in the property, APO will complete \$3,000,000 in exploration expenditures, issue 2,000,000 voting class common shares to Eagle Plains and make \$150,000 in cash payments over a 4-year period. EPL will retain a 2.0% NSR Royalty on the property (subject to underlying royalties on certain areas of the property), which royalty may be purchased by APO at any time for \$1,000,000. Upon completion of the terms of the option agreement a joint venture will be formed as defined in the agreement. On June 19, 2025, the due date for the \$50,000 cash payment, \$700,000 in share payments (due December 31, 2024), and \$500,000 in expenditures (due June 30, 2025) were amended to December 31, 2025. The Company will receive 100,000 shares as consideration.

(c) Included in administration costs is \$64,900 (2024 - \$66,750) paid or accrued for management services to a company owned by a director and officer of the Company.

(d) Included in administration costs is \$183,865 (2024 - \$76,836) paid or accrued for wages and benefits to directors and officers of the Company.

(e) Included in professional fees is \$36,000 (2024 - \$33,000) paid or accrued for accounting services to a director and an officer of the Company.

(f) The Company granted 900,000 (2024 – 500,000) options, with an exercise price of \$0.18 (2024 - \$0.17) and expiry date of August 8, 2030 (2024 – June 3, 2029), to directors of the Company and recorded share-based payments of \$49,764 (2024 - \$24,959).

All related party transactions in the normal course of business have been measured at the agreed upon exchange amounts, which is the amount of consideration established and agreed to by the related parties. Amounts due to/from the related parties are non-interest bearing, unsecured and have no fixed terms of repayment unless otherwise specified.

11. Commitments and Contingencies

The Company has \$241,124 (2024 - \$211,737) held as project reclamation bonds in favor of regulatory authorities. The amount of the deposit is determined at the time the exploration program is planned and a notice of work is submitted to the regulatory authority. If the work is more extensive than previously planned, the amount of the deposit will be increased. When reclamation work is completed on a project to the satisfaction of the regulatory authority, the deposit is released to the Company. The company also holds project reclamation deposits collected from its customers in the amount \$55,956 (2024 - \$55,956) for their exploration properties.

The Company has agreed to indemnify directors and officers under the bylaws of the Company to the extent permitted by law. The nature of the indemnifications prevents the Company from making a reasonable estimate of the maximum potential amount it could be required to pay to beneficiary of such indemnification agreement. The Company has purchased various insurance policies to reduce the risks association with such indemnification. The Company has included in officers' management contracts a change of control clause that would entitle them to compensation of approximately twenty-four (24) months' salary should such an event occur.

12. Financial Instruments

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and

Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As disclosed in Note 3(c), the Company holds various forms of financial instruments. The nature of these instruments and the Company's operations exposes the Company to concentration risk, credit risk, currency risk, price risk and commodity price risk. The Company manages its exposure to these risks by operating in a manner that minimizes its exposure to the extent practical.

a) Concentration risk

At September 30, 2025 and 2024, substantially all of the Company's cash and cash equivalents was held at two recognized Canadian National financial institutions. As a result, the Company was exposed to all of the risks associated with those institutions. Concentration risk also exists in marketable securities (investments) because the Company's investments are primarily in shares of junior resource companies involved in gold exploration.

b) Credit risk

The Company is exposed to credit risk, which is the risk that a customer or counterparty will fail to perform an obligation or settle a liability, resulting in financial loss to the Company. The Company manages exposure to credit risk by adopting credit risk guidelines that limit transactions according to counterparty credit worthiness.

The maximum credit exposure associated with accounts receivable is the carrying value on the condensed consolidated interim statement of financial position.

The Company does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime expected credit loss at each reporting date. Lifetime expected credit loss is calculated based on management assessment of the historical credit loss experience, adjusted for forward looking factors specific to the individual debtors as well as the overall economic environment, if applicable. A full allowance specifically is provided when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of the counterparty to engage in a repayment plan with the Company, and a failure to make contractual payments for a period of greater than 180 days past due.

c) Currency risk

Currency risk is the risk to the Company's operations that arise from fluctuations of foreign exchange rates and the degree of volatility of these rates. The Company does not use derivative instruments to reduce its exposure to foreign currency risk. At September 30, 2025, the Company had cash of \$3,588 (2024 - \$4,041) in US\$. The Company is not exposed to significant currency risk.

d) Price risk

The Company's investments designated as FVTPL are traded on the TSX Venture, TSE and CSE. A 1% change in the cumulative quoted share price would change the fair value of the investments by approximately \$25,000 (2024 - \$13,000). The change would be recorded in profit or loss.

12. Financial Instruments - continued

e) Commodity price risk

The value of the Company's mineral resource properties is related to the price of various commodities and the outlook for them. Commodity prices have historically fluctuated widely and are affected by numerous factors outside of the Company's control, including, but not limited to, industrial retail demand, central bank lending, forward sales by producers and speculators, level of worldwide production and short-term changes in supply and demand.

f) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquid funds to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The contractual financial liabilities of the Company as of September 30, 2025 equal \$2,169,800. \$986,506 of the liabilities presented as accounts payable and accrued liabilities are due within 30 days of September 30, 2025.

13. Supplemental Cash Flow Information

Non-cash investing and financing activities:

- (a) Pursuant to certain mineral property option agreements, the Company received 1,225,000 (2024 – 1,708,333) shares with an attributed value of \$151,250 (2024 - \$63,750).
- (b) Pursuant to debt settlement agreements, the Company received 1,028,571 shares with an attributed value of \$135,000.

14. Disaggregation of revenue

The Company earns revenue from the performance of one type of service, being geological and exploration services. Further, its customers are exploration companies based in Canada.

15. Capital Management

The Company includes cash and cash equivalents and shareholders' equity, comprising of issued common shares, accumulated other comprehensive income (loss), contributed surplus and deficit, in the definition of capital. The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The properties in which the Company currently has an interest are in the exploration stage; as such the Company is dependent upon external financings to fund activities. In order to carry out planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional funds as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the periods ended September 30, 2025 and 2024. The Company is not subject to externally imposed capital requirements.

16. Subsequent Events

On October 10, 2025 the Company announced it had granted incentive stock options to directors, employees and key consultants of the company for the purchase of a total of 1.83 million shares at an exercise price of 21 cents per share, expiring October 14, 2030, pursuant to the company's current option plan (subject to regulatory approvals).

On October 20, 2025 the Company announced it had entered into a property purchase agreement, dated October 10, 2025, with Kodiak Copper Corp. whereby Kodiak will purchase a 100% interest in the Ketch and Portland projects. The aggregate purchase price is 300,000 shares of Kodiak at a deemed market value of \$222,000. Eagle Plains will be granted a 2% net smelter return royalty ("NSR") on the claims, with Kodiak retaining the right to buy back 1% of the NSR for \$1.75 million.

On November 3, 2025 the Company announced it had entered into a purchase and sale agreement, dated October 29, 2025, with Blackcomb Silver Corp. ("Blackcomb"), a private BC company, whereby Blackcomb has acquired a 100% interest in Eagle Plains' wholly-owned Rusty Springs silver-lead-zinc-copper project. Under the terms of the agreement, Eagle Plains will grant a 100% interest in the Rusty Springs Property to Blackcomb in exchange for 5 million common shares of Blackcomb. In addition, Eagle Plains will retain a 0.5% NSR on the current Eagle Plains claims, and an additional 1.5% NSR on 343 additional claims staked by Blackcomb, of which Blackcomb may purchase 0.5% for \$1,000,000. Eagle Plains will receive an additional 5 million shares upon Blackcomb delivering an inferred resource estimate of a minimum of 80 million silver equivalent ounces.
