## **1. Nature and continuance of operations**

---

Eagle Plains Resources Ltd. (the "Company" or "Eagle Plains" or "EPL") was incorporated on March 30, 1994, pursuant to the Alberta Business Corporation Act (Alberta), and is extra provincially registered in the Yukon, British Columbia, the Northwest Territories and Saskatchewan. The Company is a junior resource company holding properties located in British Columbia, Yukon, the Northwest Territories and Saskatchewan for the purpose of exploring for, and the development of, mineral resources and it is considered to be in the exploration stage.

The Company also provides geological services on its properties optioned to others and properties owned by others through its subsidiary, TerraLogic Exploration Inc. (incorporated pursuant to the British Columbia Corporation Act). The gross profit reported on the consolidated statements of comprehensive income (loss) relates solely to geological services provided to third parties.

On August 15, 2024, the Company formed a separate division, Osprey Power Inc. ("OP"), within the Company that will give Eagle Plains' shareholders direct exposure to strategic opportunities in Canadian green energy transition. As a wholly-owned subsidiary of Eagle Plains, OP will focus on identifying and advancing innovative and diverse clean energy project portfolios in target markets throughout Canada, with an initial focus on Western Canada.

The Company's corporate office and principal place of business is Suite 200, 44-12<sup>th</sup> Avenue South, Cranbrook, British Columbia, Canada.

The Company continues to be dependent upon its ability to finance its operations and exploration programs through financing activities that may include issuances of additional debt or equity securities. The recoverability of the carrying value of exploration projects, and ultimately, the Company's ability to continue as a going concern, is dependent upon the existence and economic recovery of reserves, the ability to raise financing to complete the development of the properties, and upon future profitable production or, alternatively, upon the Company's ability to dispose of its interest on an advantageous basis, all of which are uncertain. These material uncertainties may cast significant doubt upon the Company's ability to continue as a going concern.

The Company's business may be affected by changes in political and market conditions, such as interest rates, availability of credit, inflation rates, tariffs, changes in laws, and national and international circumstances. Recent regional conflicts and potential economic global challenges such as the risk of the higher inflation and energy crises, may create further uncertainty and risk with respect to the prospects of the Company's business.

These circumstances could have a negative impact on the stock market, including trading prices of the Company's shares and its ability to raise new capital. These factors, amongst others, could have a significant impact on the Company's operations. These consolidated financial statements do not include any adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue in business.

---

## **2. Basis of Preparation**

---

### **(a) Statement of Compliance**

The condensed consolidated interim financial statements for the Company for the periods ending March 31, 2025 and 2024 are prepared in accordance with International Financial Accounting Standard 34 ("IAS 34"), Interim Financial Reporting, using accounting policies which are consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

These condensed consolidated interim financial statements were authorized for issue by the Board of Directors on May 28, 2025.

### **(b) Basis of Measurement**

These condensed consolidated interim financial statements have been prepared on a historical cost basis except for financial instruments classified as fair value through profit or loss ("FVTPL") which are stated at their fair value. These condensed consolidated interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

**March 31, 2025 and 2024**

---

## **2. Basis of Preparation - continued**

---

### **(b) Basis of Measurement - continued**

These condensed consolidated interim financial statements are presented in Canadian dollars, which is also the Company's functional currency.

### **(c) Use of Estimates and Judgments**

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Financial results as determined by actual events could differ from these estimates.

The estimates and underlying assumptions are continuously evaluated and reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and further periods if the revision affects both current and future periods.

Areas of significant judgment include the assessments of going concern assumption and impairment of exploration and evaluation assets.

---

## **3. Material Accounting Policies**

---

The condensed consolidated interim financial statements have been prepared, for all periods presented, following the same accounting policies and methods of computation as described in Note 3 to the audited consolidated financial statements for the year ended December 31, 2024.

### **New accounting pronouncements**

Certain new standards, interpretations and amendments to existing standards have been issued by the IASB that are mandatory for accounting years beginning after January 1, 2024, or later years. Updates that are not applicable and have no significant impact to the Company have been excluded in the preparation of these condensed consolidated interim financial statements.

### **Amendments to IAS 1 – Classification of Liabilities as Current or Non-current**

The amendments to IAS 1 provide a more general approach to the classification of liabilities based on the contractual arrangements in place at the reporting date. These amendments are effective for reporting periods beginning on or after January 1, 2024 and are expected to have no significant impact to the future financial statements.

The following accounting standard and amendment are effective for future periods.

### **IFRS 18 – Presentation and Disclosure in Financial Statements**

The objective of the Standard is to improve how information is communicated in an entity's financial statements, particularly in the statement of profit or loss and in its notes to the financial statements. The main change introduced by IFRS 18 is to the way in which reporting entities will structure their statement of profit or loss. Firstly, the Standard introduces two new defined subtotals: Operating Profit and Profit before financing and income taxes. Additionally, the Standard requires an entity to classify all income and expenses into one of the following five categories: operating, investing, financing, income taxes and discontinued operations. The Standard is effective from annual reporting periods beginning on or after January 1, 2027.

Other	<b>44,375</b>	45,587
	<b><u>\$ 559,544</u></b>	<u>\$ 504,298</u>

The Company has provided an allowance for lifetime expected credit losses based on the non-ability of certain customers to meet their obligations. The Company does not hold any collateral as security.

**5. Investments**

The Company holds investments that have been designated as FVTPL as follows:

	<b>March 31, 2025</b>		December 31, 2024	
	<b>Market Value</b>	<b>Cost</b>	Market Value	Cost
Current:				
Common shares in public companies	<b>\$ 1,980,583</b>	<b>\$ 3,275,796</b>	\$ 1,352,224	\$ 3,487,328

For securities traded in an active market, market value is based on the quoted closing bid prices of the securities at March 31, 2025. Cost is calculated using the quoted closing bid price on the date of receipt of the securities.

During the period, the Company received 750,000 (2024 – 875,000) shares for the various option and property purchase agreements in effect with an attributed value of \$86,500 (2024 - \$206,250).

During the period, the Company sold investments and received proceeds of \$49,412 (2024 - \$262,532).

The Company recorded a gain (loss) on investments of \$839,891 (2024 – \$(95,773)) in the period which is included in the condensed consolidated interim statements of comprehensive income (loss).

**7. Exploration and Evaluation Assets**

During the period ended March 31, 2025, the Company made acquisition and exploration expenditures of \$86,027 (2024 - \$75,345) and received option payments of \$136,500 (2024 - \$21,250). As a result of option payments received, the Company recorded in income, option proceeds in excess of carrying value of \$108,000 (2024 - \$nil). The Company wrote down exploration and evaluations assets of \$nil (2024 - \$(629)). Exploration and evaluation assets totaled \$2,902,210 at March 31, 2025, up from \$2,871,780 at December 31, 2024. See Schedule 1 – Exploration and evaluation assets and Schedule 2 – Acquisition and exploration additions.

The Company has interests in a number of optioned exploration projects. As at March 31, 2025, the Company has executed option agreements with third parties on the following projects:

**Option Agreements - Third party earn in British Columbia**

- (a) **Donna Project:** On June 1, 2022, the Company executed a formal option agreement (subject to regulatory approval) with Annacotty Resources Corp. (a private BC company) (“Annacotty”) whereby Annacotty may earn an undivided 60% interest in the Donna Project located east of Vernon, British Columbia. Under terms of the Agreement, Annacotty must complete \$4,000,000 in exploration expenditures, issue 1,200,000 common shares and make \$520,000 in cash payments to Eagle Plains over a five-year period. The agreement was amended December 21, 2022 whereby in consideration for an additional 100,000 shares, the December 31, 2022 payment date was extended to May 30, 2023. On July 21, 2023, an amendment was made to the agreement whereby Annacotty is required to incur \$80,000 expenditures by December 31, 2023 and the effective date changed to May 31, 2024 for consideration of 100,000 shares. Eagle Plains will retain a 2.0% NSR Royalty, with Annacotty having the option to repurchase 1% of the NSR Royalty for \$1.0 million. Payments are due as follows:

Cash Payments	Share Payments	Expenditures	Due Date
\$ -	-	\$80,000	December 31, 2023 (completed)

<u>\$ 520,000</u>	<u>1,400,000</u>	<u>\$ 4,080,000</u>	

- (b) **Findlay Project:** On May 5, 2023, the Company executed an option agreement with Amaroq Gold Corp. (“Amaroq”), a BC corporation, whereby Amaroq may earn up to a 75% interest in the Findlay Project, located NW of Kimberley, BC. The project is owned 100% by Eagle Plains, subject to underlying royalties. Under the terms of the agreement, Amaroq may earn a 60% interest by completing \$5,000,000 in exploration expenditures, issuing 1,800,000 voting class common shares and making \$500,000 in cash payments over a 4-year period. Amaroq may increase its interest to 75% by delivering a feasibility study by 2030. A 2% NSR is reserved for Eagle Plains. Payments are due as follows:

- (c) **Iron Range Project:** On February 26, 2025, the Company and Earthwise Mineral Corp ("Earthwise") entered into an option agreement pursuant to which Earthwise has been granted the exclusive right to acquire up to a 70% (Option 1) or 80% (Option 2) interest in the Company's 100% owned Iron Range Project. To exercise the option, Earthwise must make a series of cash payments and share issuances to EPL and fund exploration expenditures on the project. These payments, share issuance and expenditures are separated into two phases, with the first option entitling the Earthwise to acquire a 70% interest in the project by paying \$250,000, issuing an aggregate of 1,500,000 common shares to EPL and funding \$4,000,000 in exploration expenditures on the project by February 28, 2029. Pursuant to the second phase of the option, Earthwise may acquire an additional 10% interest in the project (for an 80% total interest) by paying an additional \$1,000,000. If the Option 1 or Option 2 is exercised, a 2% smelter return royalty will be granted to EPL, 1% of which may be repurchased for \$1,500,000. Payments are due as follows:

("Refined") entered into an option agreement, pursuant to which Refined has been granted the exclusive right to acquire up to a 75% interest in the Dufferin Project. To exercise the option, Refined must make a series of cash payments and share issuances to Eagle Plains and fund exploration expenditures on the project. These payments, share issuance and expenditures are separated into two phases, with the first option entitling the Company to acquire a 60% interest in the project by paying \$275,000, issuing an aggregate of 1,000,000 post-consolidated common shares to EPL and funding \$2,600,000 in exploration expenditures on the project by December 31, 2026. Pursuant to the second phase of the option, the Company may acquire an additional 15% interest in the project (for a 75% total interest) by paying an additional \$500,000, issuing an additional 500,000 post-consolidated shares to EPL and funding an additional \$3,000,000 in exploration expenditures on the project by December 31, 2028. If the first option or the second option is exercised, a 2% smelter return royalty will be granted to Eagle Plains, 1% of which may be repurchased for \$2,000,000. Following the exercise of the first option or the second option by the Company, the Company and EPL will form a joint-venture which will administer the continued exploration and operation of the project. Payments for Phase I are due as follows:

- (f) **Olson Project:** On October 24, 2019, the Company executed an option agreement with SKRR whereby SKRR may earn up to a 75% interest in the Olson property located in northern Saskatchewan. Under terms of the agreement, SKRR may earn 51% interest in the property by completing exploration expenditures of \$1,500,000, making cash payments of \$250,000 and issuing 800,000 voting class common shares to EPL over a 3-year period. SKRR may earn up to an additional 24% interest (75% total) in the property by making additional exploration expenditures of \$1,500,000 and issuing 200,000 common shares of SKRR to Eagle Plains on or before December 31, 2023. All payments and requirements have been completed as of February 23, 2023, and SKRR is deemed to have earned a 75% interest in the project.

- (g) **Pine Channel Project:** On May 11, 2021, the Company and Tri Capital Opportunities Corp. (subsequently renamed Apogee Minerals Ltd.) ("APO") executed a formal option agreement whereby APO may acquire up to an 80% interest in EPL's 100%-owned Pine Channel project located in Saskatchewan. To earn an 80% interest in the property, APO will complete \$3,000,000 in exploration expenditures, issue 2,000,000 voting class common shares to Eagle Plains and make \$150,000 in cash payments over a 4-year period. EPL will retain a 2.0% NSR Royalty on the property (subject to underlying royalties on certain areas of the property), which royalty may be purchased by APO at any time for \$1,000,000. Upon completion of the terms of the option agreement a joint venture will be formed as defined in the agreement. On February 18, 2022, the due dates of the exploration expenditure commitments were extended by one year and the Company received \$40,000 as consideration. On July 12, 2023, the due date for the \$50,000 cash payment and \$500,000 expenditure payments (due June 30, 2023) were amended to June 30, 2024 and the Company received 150,000 shares as consideration. - (h) **Uranium Project:** On December 13, 2023, the Company executed six individual option agreements with Xcite Resources Inc. ("Xcite"), a BC corporation, whereby Xcite may earn up to an 80% interest in six individual uranium projects located near Uranium City in northern Saskatchewan. Under the terms of the agreement, Xcite may earn an 80% interest in each individual property by completing \$3,200,000 in exploration expenditures, issuing 750,000 common shares of Xcite and making cash payments to Eagle Plains of \$55,000 over four years, for an aggregate of \$19,200,000 in exploration expenditures, 4,500,000 shares and \$330,000 in cash to Eagle Plains. Upon Xcite fulfilling the terms of any or all of the earn-in agreements, an 80/20 joint venture will be formed, with Eagle Plains retaining a carried interest in all expenditures until delivery by Xcite or its assigns of a bankable feasibility study. During the option earn-in period, Xcite will be appointed as operator, and EPL will manage the exploration programs under the direction of a joint technical committee. The projects are owned 100% by EPL, who will retain an underlying 2% NSR royalty on the each of the properties, which may be reduced to 1% upon payment of \$2 million.

(c) Share-based payments for share options

During the period ended March 31, 2025, \$1,310 (2024 – \$4,963) was recorded as share-based payments related to options issued and vested during the period. Compensation expense has been determined based on the estimated fair value of the options at the grant dates and amortized over the vesting year.

The Company valued the options granted in the year using the Black-Scholes model and the following weighted average assumptions:

	<b>2024</b>	<b>2023</b>
	<b>Granted</b>	<b>Granted</b>
Expected annual volatility	<b>53.46%</b>	<b>60.13%</b>
Expected risk free rate	<b>3.42%</b>	<b>3.13%</b>

Exercise price	<b>\$0.17</b>	<b>\$0.24</b>
Fair value on measurement date	<b>\$0.05</b>	<b>\$0.11</b>

Expected volatility is estimated using the historical stock price of the Company.

(d) Warrants outstanding

During the periods ended March 31, 2025 and 2024, the Company had the following warrant activities:

	Number of Warrants	Exercise Price per Share Range
<b>Balance, December 31, 2024 and March 31, 2025</b>	<b>6,006,279</b>	<b>\$0.25 - \$0.30</b>

	Number of Warrants	Exercise Price per Share Range
<b>Balance, December 31, 2023 and March 31, 2024</b>	<b>7,482,279</b>	<b>\$0.25 - \$0.30</b>

At March 31, 2025, the following table summarizes information about warrants outstanding:

Warrants Outstanding March 31, 2025	Exercise Price	Expiry Date	Weighted Average Remaining Life
3,785,529 <sup>(1)</sup>	\$ 0.25	July 11, 2025	0.28 years
2,220,750	\$ 0.30	August 2, 2025	0.34 years
<b>6,006,279</b>			<b>0.31 years</b>

<sup>(1)</sup>On June 25, 2024 the Company extended the warrants expiry date from July 11, 2024 to a revised date of July 11, 2025. All other terms remain unchanged.

**9. Per Share Amounts**

The calculation of per share amounts have been calculated based on the weighted average number of shares outstanding during the period ended March 31, 2025 of 115,057,227 (2024 – 115,057,227) shares. Options and warrants were excluded for 2025 as their effect on the calculation is anti-dilutive. The net effect of applying the treasury-stock method to the weighted average number of shares outstanding did not impact EPS significantly for 2025.

Payment from ER	-	<b>100,000</b>
	<b>\$ 3,492</b>	<b>\$ 122,542</b>

At March 31, 2025, \$8,616 (December 31, 2024 - \$8,840) is included in due from related party.

- (b) Compensation to key management personnel in the period:

	<b>2025</b>	<b>2024</b>
Administration costs		
Management fees	<b>\$ 22,250</b>	<b>\$ 22,250</b>
Wages and benefits	<b>35,533</b>	<b>25,612</b>
Professional fees	<b>12,000</b>	<b>10,500</b>
	<b>\$ 69,783</b>	<b>\$ 58,362</b>

- (c) Included in administration costs is \$22,250 (2024 - \$22,250) paid or accrued for management services to a company owned by a director and officer of the Company.
- (d) Included in administration costs is \$35,533 (2024 - \$25,612) paid or accrued for wages and benefits to a director and officer of the Company.
- (e) Included in professional fees is \$12,000 (2024 - \$10,500) paid or accrued for accounting services to a director and officer of the Company.

All related party transactions in the normal course of business have been measured at the agreed upon exchange amounts, which is the amount of consideration established and agreed to by the related parties. Amounts due to/from the related parties are non-interest bearing, unsecured and have no fixed terms of repayment unless otherwise specified.

**11. Commitments and Contingencies**

The Company has \$189,852 (2024 - \$186,439) held as project reclamation bonds in favor of regulatory authorities. The amount of the deposit is determined at the time the exploration program is planned and a notice of work is submitted to the regulatory authority. If the work is more extensive than previously planned, the amount of the deposit will be increased. When reclamation work is completed on a project to the satisfaction of the regulatory authority, the deposit is released to the Company. The Company also holds project reclamation deposits collected from its customers in the amount \$55,956 (2024 - \$56,269) for their exploration properties.

The Company has agreed to indemnify directors and officers under the bylaws of the Company to the extent permitted by law. The nature of the indemnifications prevents the Company from making a reasonable estimate of the maximum potential amount it could be required to pay to beneficiary of such indemnification agreement. The Company has purchased various insurance policies to reduce the risks association with such indemnification. The Company has included in officers' management contracts a change of control clause that would entitle them to compensation of approximately twenty-four (24) months' salary should such an event occur.

**12. Financial Instruments**

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and

Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following table sets forth the Company's financial assets measured at fair value by level within the fair value hierarchy.

March 31, 2025	Level 1	Level 2	Level 3	Total
<b>Assets:</b>				
Cash and cash equivalents	\$ 7,961,859	\$ -	\$ -	\$ 7,961,859
Investments	\$ 1,980,583	\$ -	\$ -	\$ 1,980,583
<hr/>				
March 31, 2024	Level 1	Level 2	Level 3	Total
<b>Assets:</b>				
Cash and cash equivalents	\$ 9,391,088	\$ -	\$ -	\$ 9,391,088
Investments	\$ 1,314,189	\$ -	\$ -	\$ 1,314,189

The Company holds various forms of financial instruments. The nature of these instruments and the Company's operations exposes the Company to concentration risk, credit risk, currency risk, price risk and commodity price risk. The Company manages its exposure to these risks by operating in a manner that minimizes its exposure to the extent practical.

a) Concentration risk

At March 31, 2025 and December 31, 2024, substantially all of the Company's cash and cash equivalents was held at two recognized Canadian National financial institutions. As a result, the Company was exposed to all of the risks associated with those institutions. Concentration risk also exists in marketable securities (investments) because the Company's investments are primarily in shares of junior resource companies involved in gold exploration.

b) Credit risk

The Company is exposed to credit risk, which is the risk that a customer or counterparty will fail to perform an obligation or settle a liability, resulting in financial loss to the Company. The Company manages exposure to credit risk by adopting credit risk guidelines that limit transactions according to counterparty credit worthiness.

The maximum credit exposure associated with accounts receivable is the carrying value on the condensed consolidated interim statement of financial position.

The Company does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime expected credit loss at each reporting date. Lifetime expected credit loss is calculated based on management's assessment of the historical credit loss experience, adjusted for forward looking factors specific to the individual debtors as well as the overall economic environment, if applicable. A full allowance specifically is provided when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of the counterparty to engage in a repayment plan with the Company, and a failure to make contractual payments for a period of greater than 180 days past due.

c) Currency risk

Currency risk is the risk to the Company's operations that arise from fluctuations of foreign exchange rates and the degree of volatility of these rates. The Company does not use derivative instruments to reduce its exposure to foreign currency risk. At March 31, 2025, the Company had cash of \$3,588 (2024 - \$4,041) in US\$. The Company is not exposed to significant currency risk.

d) Price risk

The Company's investments designated as FVTPL are traded on the TSX Venture, NYSE, TSE and CSE. A 1% change in the cumulative quoted share price would change the fair value of the investments by approximately \$19,000 (2024 - \$13,000). The change would be recorded in profit or loss.

e) Commodity price risk

The value of the Company's mineral resource properties is related to the price of various commodities and the outlook for them. Commodity prices have historically fluctuated widely and are affected by numerous factors outside of the Company's control, including, but not limited to, industrial retail demand, central bank lending, forward sales by producers and speculators, level of worldwide production and short-term changes in supply and demand.

f) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquid funds to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The contractual financial liabilities of the Company as of March 31, 2025 equal \$671,350. \$615,394 of the liabilities presented as accounts payable and accrued liabilities are due within 30 days of March 31, 2025.

**15. Capital Management**

---

The Company includes cash and cash equivalents and shareholders' equity, comprising of issued common shares, accumulated other comprehensive income (loss), contributed surplus and deficit, in the definition of capital. The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The properties in which the Company currently has an interest are in the exploration stage; as such the Company is dependent upon external financings to fund activities. In order to carry out planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional funds as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the periods ended March 31, 2025 and 2024. The Company is not subject to externally imposed capital requirements.
